## COMBINATION PAINT.

BY THE GALLON, READY FOR USE.

### A STRICTLY PURE OIL PAINT,

This is our First Quality and is as good as can be made; the Second Quality, we designate "MIXED PAINT," and warrant free from water, coal-oil, or benzine. Lower grades mixed to order, at prices to meet the wants of the purchaser. With present facilities, we can make **ANY GRADE OF READY MIXED PAINT.**

### PRICES OF COMBINATION PAINT.

All Shades as numbered.....	\$1.75 per Gallon
Inside and Outside White, (one grade only).....	1.75 "
Quart Cans, White and all Shades, as numbered.....	6.00 per Dozen
Pint "	3.50 "
Half-pint "	2.00 "
Roofing Paint,.....	70 Cts. to \$1.00 per Gallon

In Ordering White Paint, be sure to designate whether for inside or outside use, as they must necessarily be prepared quite differently.

## WATERALL'S MISSOURI WHITE LEAD,

Supplies a want long felt amongst painters for something as good, but much cheaper, than the commercial article of pure lead. After several years of experiment and three years of practical test by our customers, we can insure the trade that this brand of Lead is both economical and durable. Its prominent characteristic is a strong affinity between the dry pigment and the linseed oil, hence it does not cake in the package, and the last pound taken from a package is as soft and mellow as the first. When applied, it does not moulder and chalk off as so much of the old style pure Lead does, and for this reason, and the fact that it contains 60 per cent. more oil than the same weight of carbonate Lead, we consider it

### THE BEST PAINT KNOWN FOR SEA-SIDE USE.

It has already won the approval of most of our customers, and we propose bestowing extra care to keep it up to the mark in every particular.

### WATERALL'S SPECIALTIES.
